- b. Dust- and -wet mopping or auto-scrubbing floors.
- c. Vacuuming of entryways and high traffic areas.
- d. Removing all trash.
- e. Cleaning restrooms.
- f. Wiping heat and air conditioner vents.
- g. Spot cleaning walls.
- h. Spot cleaning carpets.
- i. Dusting horizontal surfaces and light fixtures.
- j. Disinfect all buttons on vending machines and elevators.
- k. Disinfect all phones and desk tops.

Breakrooms:

- a. Clean and disinfect every table and chair.

Classrooms/ Conference rooms:

- a. Clean and disinfect every table and chair.

Note: Computer keyboards are difficult to clean due to the spaces between the keys and the sensitivity of its hardware to liquids. Because of such we will not spray chemical directly on the keyboard. We will spray disinfectant directly on micro-fiber towel to fully wipe down the keyboard.

*** We use EPA and CDC approved disinfectants.***
